Handbook of Financing Energy Projects

Albert Thumann, Eric Woodroof

Handbook of Financing Energy Projects Albert Thumann, Eric Woodroof

Lack of funding is the number one project killer. Most organizations do not have extra cash lying around, therefore most projects must be financed to get approval. Your energy project may be one of many potential projects from which the CFO can choose only a few. If you present your proposal with positive cash flow, your project will stand-out from the crowd. Filled with practical yet innovative financing methods, Handbook of Financing Energy Projects provides effective solutions to finance problems.

The authors delineate the key success factors for structuring a financed energy project and getting it approved. They examine and assess the full scope of current project financing, including energy service performance contracting, rate of return analysis, and energy savings measurement and verification. You get all the facts you need to assess a project's payback in advance, avoid potential risks and hidden costs, and assure that their energy projects are an economic success.

There are many correct ways to assemble and finance an energy management project. The possibilities are limited only by your creativity. This book explores successful solutions for every situation and builds increased confidence in your understanding of the many successful ways to assemble and finance an energy management project.
