Mathematics and the Aesthetic (CMS Books in Mathematics)

Nathalie Sinclair, William Higginson

Mathematics and the Aesthetic (CMS Books in Mathematics) Nathalie Sinclair, William Higginson
The essays in this book explore the ancient affinity between the mathematical and the aesthetic, focusing on the fundamental connections between these two modes of reasoning and communicating. From historical, philosophical and psychological perspectives, with particular attention to certain mathematical areas such as geometry and analysis, the authors examine the ways in which the aesthetic is ever present in mathematical thinking and contributes to the growth and value of mathematical knowledge.
