And its practice is focused on flexibility of the body, especially shoulders and wrists. Thus, constant practice do good to the body and the soul, by strengthening body's harmony and immediate responses and sharpening the ability against violent attack. Therefore, with perfect integration of practicality and appreciation, it has been listed as the traditional and classic routine of Chinese martial arts. The book adopts the three-dimensional teaching method, combines the writing, diagram and video. The authoritative experts are invited for the technical performance and teaching demonstrations, so it ensures that learners grasp the sterling and original and skills.
