**Raising Race Questions: Whiteness and Inquiry in Education (Practitioner Inquiry)** Ali Michael  
*Raising Race Questions* explores the opportunities and challenges that arise when White teachers are willing to deal directly with race and the role it plays in their classrooms. Based on lessons gleaned from experienced White teachers in a variety of settings, it lays out a path for using inquiry to develop sustained, productive engagement with challenging--and common--questions about race. It suggests that guilt and conflict need not be the end point of raising race questions and offers alternative destinations: antiracist classrooms, positive racial identities, and a restoration of the wholeness that racism undermines.
