Personal Epistemology

Barbara K. Hofer, Paul R. Pintrich

Personal Epistemology Barbara K. Hofer, Paul R. Pintrich

This is the first book to provide a comprehensive overview of the theoretical and methodological approaches to the study of personal epistemology from a psychological and educational perspective. Both theory building and empirical research have grown dramatically in the past decade but, until now, this work has not been pulled together in a single volume. That is the mission of this volume whose state-of-the-art theory and research are likely to define the field for the next 20 years. Key features of this important new book include:

***Pioneering Contributors**--The book provides current perspectives of each of the major theoreticians and researchers who pioneered this growing field, as well as contributions from new researchers.

***Diverse Perspectives**--The contributors represent a variety of perspectives, including education, educational psychology, developmental psychology, higher education, and science and mathematics education.

***Editorial Integration**--Opening and closing chapters by the editors set out key issues confronting the field.
