## **Reading Paulo Freire: His Life and Work (S U N Y Series, Teacher Empowerment and School Reform) Moacir Gadotti**

"This book deals with one of the most important educators of this century. It presents the work and life of Paulo Freire in a simple, straightforward fashion. By placing the life and work of Freire in the context of the history of ideas, the book introduces the reader to the complexities of Freire's pedagogical and epistemological position. The book is accessible, and will be welcome particularly by those who may have difficulties reading Paulo Freire. It does what it promises: makes Paulo Freire available to a wide readership. Likewise, the book discusses a pedagogical approach that is still evolving and has tremendous vibrancy for contemporary research and teaching. Professor Gadotti has captured this dimension in Freire's work better than many other scholars I have read."-- Carlos Alberto Torres, UCLA

"The topic is profoundly significant. Educators and intellectuals cannot talk today of literacy and education without reading this piece. The book is important in itself as well as central to educational and literacy studies. This is an important contribution--meaningfully thorough and intellectually stimulating. What I like most about the book is its ability to capture the originality and simultaneous growth in complexity of Paulo Freire's life and work." -- Herman S. Garcia, New Mexico State University

This book was written as Paulo Freire himself would have done it, using a method of learning through victories and defeats in the same way one learns in life. The author follows a chronological line in which life and work are naturally mixed. In many cases, he lets Paulo Freire's work speak for itself.

#### **Justin Belz:**

Information is provisions for those to get better life, information today can get by anyone at everywhere. The information can be a expertise or any news even restricted. What people must be consider while those information which is in the former life are difficult to be find than now's taking seriously which one is appropriate to believe or which one the resource are convinced. If you get the unstable resource then you get it as your main information it will have huge disadvantage for you. All of those possibilities will not happen inside you if you take Reading Paulo Freire: His Life and Work (S U N Y Series, Teacher Empowerment and School Reform) as the daily resource information.

#### **Victor Havens:**

As a student exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some e-book, they are complained. Just tiny students that has reading's spirit or real their interest. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading really. Any students feel that examining is not important, boring and also can't see

colorful images on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Reading Paulo Freire: His Life and Work (S U N Y Series, Teacher Empowerment and School Reform) can make you sense more interested to read.
