How to build a culture of high performance within your organization

The U.S. military in general, and its many elite organizations in particular, possesses a culture of high performance. *Courage to Execute* outlines the six basic principles that operate at the foundation of high performance, which include leadership, organization, communication, knowledge, experience, and discipline, known together as LOCKED. When all are practiced effectively, teamwork emerges. But the most elusive quality that exists at the heart of all elite military teams, the element that organizations and businesses deeply desire to perform more efficiently and effectively, is trust. Trust is easily spent, but hard won. Author James Murphy, an employer of approximately fifty senior military officers that have served in elite units such as the U.S. Navy Blue Angels, U.S. Navy SEALs, and U.S. Army Rangers, shares a multitude of personal leadership stories that illustrates the principles of LOCKED.

- Shares compelling anecdotes from leaders in elite units of the U.S. Military
- Written by James D. Murphy, founder and CEO of Afterburner, Inc., which has trained over 1.5 million executives, sales professionals, and business people from every industry in Afterburner's Flawless Execution Model, and its unique, high-energy programs

Courage to Execute will help you develop effective leadership skills and build high-performance teams that out-compete your rivals every time.
