Obama at War: Congress and the Imperial Presidency (Studies In Conflict Diplomacy Peace) Ryan Hendrickson

During President Barack Obama's first term in office, the United States expanded its military presence in Afghanistan and increased drone missile strikes across Pakistan, Yemen, and Somalia. The administration also deployed the military to combat piracy in the Indian Ocean, engaged in a sustained bombing operation in Libya, and deployed U.S. Special Forces in Central Africa to capture or kill Joseph Kony. In these cases, President Obama decided to use force without congressional approval. Yet, this increased executive power has not been achieved simply by the presidential assertion of such powers. It has also been supported by a group of senators and representatives who, for political reasons that stem from constant campaigning, seek to avoid responsibility for military action abroad.

In this revealing book, Ryan C. Hendrickson examines President Obama's use of force in his first term with four major case studies. He demonstrates that, much like his predecessors, Obama has protected the executive branch's right not only to command, but also to determine when and where American forces are deployed. He also considers the voting records of Democrat John Kerry and Republican John McCain in the Senate, detailing how both men have played leading roles in empowering the commander-in-chief while limiting Congress's influence on military decision-making.

Obama at War establishes that the imperial presidency poses significant foreign policy risks, and concludes with possible solutions to restore a more meaningful balance of power. The first book on the constitutional and political relationship between President Obama and the U.S. Congress and the use of military force, this timely reassessment of war powers provides a lucid examination of executive privilege and legislative deference in the modern American republic.

Pedro Lewis:

As a college student exactly feel bored for you to reading. If their teacher inquired them to go to the library in order to make summary for some book, they are complained. Just minor students that has reading's internal or real their passion. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that looking at is not important, boring and can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Obama at War: Congress and the Imperial Presidency (Studies In Conflict Diplomacy Peace) can make you experience more interested to read.
