Have you ever questioned your existence or reason for being here on the earth? I believe we all have at some point in our lives thought about these questions and their possible answers. In fact I would go as far as to say that these questions are ingrained into our psyche and are very much a part of the normal human experience. But why? Could it be that we've missed something. That buried deep within our subconscious is a memory of something important from our past that we've forgotten...a bit of missing information perhaps that could answer these age old questions that plague us and that keep us searching, grasping at answers like grasping for straws. What if I said the answer has been here all along, right in front of us all in the very book that many of us have turned to for answers, the bible. I invite you now to follow me on an amazing journey into the heart of a creator and a father who has stopped at nothing to bring us back to the purpose for which he originally created us....back to the garden where it all began.
