Transformative Phenomenology: Changing Ourselves, Lifeworlds, and Professional Practice

The fourteen authors in this collection used phenomenology (the study of consciousness) and hermeneutics (the interpretation of meaning) to conduct deep inquiry into perplexing and wondrous events in their work and personal lives. These seasoned scholar-practitioners gained remarkable insight into areas such as health care and illness, organ donation, intercultural communications, high-performance teams, artistic production, jazz improvisation, and the integration of Tai Chi into education. All authors were transformed by phenomenology's expanded ways of seeing and being.
