Blood Hound (Alexi Sokolsky: Hound of Eden) James Osiris Baldwin

"One of the first things every new mage learns about magic is that—despite your newly discovered powers over the universe—you are forever a struggling speck of krill in a very large, very cold, very dangerous ocean."

Alexi Sokolsky is a spook, a hitman who uses his mediocre magical talents to help him in the hunt. However, his place in the Yaroschenko Organisatiziya - the Russian Mafiya that has dominated New York since the 1960s - is more than tenuous. Socially ostracized and on the wrong side of a power struggle between the old gangsters and the new, Alexi accepts a job that he hopes will gain him enough respect to survive the dog-eat-dog world of criminal politics... a job which drags him straight into the fight over a fruit from the garden of Eden, a humanoid being known as a Gift Horse.

The Gift Horse's flesh could make a world-changing monster out of any mage, and Alexi's opponents - an immensely powerful maverick from the Italian Mob and an unknown demon-summoning psychopath - both know it. Alexi must decide whether he will answer the Gift Horse's call to become the cure for the sickness attacking his world, or if he is part of the disease that will destroy it.

Set in the early 90s, BLOOD HOUND is the first novel in the Hound of Eden series, which tells the story of a hitman who is chosen as the champion of G.O.D, the enormous organism that comprises the known universe.
