Point-of-Care Diagnostics on a Chip (Biological and Medical Physics, Biomedical Engineering)

Point-of-Care Diagnostics on a Chip (Biological and Medical Physics, Biomedical Engineering)

The topic of this book is the development of automated and inexpensive tools that transfer medical tests from a specialized clinical laboratory directly to the point of care, using biochip technology. Immediate access to medically relevant biochemical information for doctors and nurses promises to revolutionize patient care and dramatically lower costs. The miniaturization and automation of medical tests are made possible by biochip technology, that integrates advances in integrated circuits, microelectromechanical systems (MEMS), microfluidics, and electronics. The target audience for this book includes engineering and biomedical researchers who would like to develop or apply biochip technology. They can use this book as a review of the field and as a guide for the development of novel biochip technology for point of care medicine. This book can also be used as a teaching tool for engineering and biomedical students, as well as a reference for physicians and health professionals.

From reader reviews:

Ismael Roop:

The book Point-of-Care Diagnostics on a Chip (Biological and Medical Physics, Biomedical Engineering) make one feel enjoy for your spare time. You can utilize to make your capable more increase. Book can to get your best friend when you getting stress or having big problem along with your subject. If you can make looking at a book Point-of-Care Diagnostics on a Chip (Biological and Medical Physics, Biomedical Engineering) for being your habit, you can get a lot more advantages, like add your personal capable, increase your knowledge about many or all subjects. It is possible to know everything if you like wide open and read a publication Point-of-Care Diagnostics on a Chip (Biological and Medical Physics, Biomedical Engineering). Kinds of book are several. It means that, science publication or encyclopedia or other folks. So , how do you think about this reserve?

Floretta Simmons:

Nowadays reading books are more than want or need but also work as a life style. This reading addiction give you lot of advantages. The benefits you got of course the knowledge even the information inside the book in which improve your knowledge and information. The data you get based on what kind of guide you read, if you want attract knowledge just go with education and learning books but if you want experience happy read one with theme for entertaining including comic or novel. Typically the Point-of-Care Diagnostics on a Chip (Biological and Medical Physics, Biomedical Engineering) is kind of guide which is giving the reader unpredictable experience.

John Valdez:

This book untitled Point-of-Care Diagnostics on a Chip (Biological and Medical Physics, Biomedical Engineering) to be one of several books that will best seller in this year, here is because when you read this guide you can get a lot of benefit into it. You will easily to buy that book in the book retail outlet or you can order it through online. The publisher in this book sells the e-book too. It makes you more easily to read this book, because you can read this book in your Touch screen phone. So there is no reason for you to past this publication from your list.

Marilyn Vance:

A lot of publication has printed but it differs. You can get it by web on social media. You can choose the most beneficial book for you, science, amusing, novel, or whatever by means of searching from it. It is named of book Point-of-Care Diagnostics on a Chip (Biological and Medical Physics, Biomedical Engineering). You'll be able to your knowledge by it. Without departing the printed book, it could add your knowledge and make a person happier to read. It is most important that, you must aware about publication. It can bring you from one destination to other place.
