The *CISM Review Questions, Answers & Explanations Manual 2011* compiles 650 multiple-choice study questions that have previously appeared in the *CISM Review Questions, Answers & Explanations Manual 2009*, the *2009 Supplement* and the *2010 Supplement* into one effective resource. These questions are not actual exam items, but are intended to provide the CISM candidate with an understanding of the type and structure of questions and content that have previously appeared on the exam. This publication is ideal to use in conjunction with the *CISM Review Manual 2011*.

To help exam candidates maximize - and customize - their study efforts, questions are presented in the following two ways:

Sample 200-question exam - 200 of the 650 questions included in the manual are selected to represent a full-length CISM exam, with questions chosen in the same percentages as the current CISM job practice areas. Candidates are urged to use this sample test to simulate an actual exam, but also to determine their strengths and weaknesses in order to identify areas that require further study. Answer sheets and an answer/reference key for the sample exam are also included. All sample test questions have been cross-referenced to the questions sorted by practice area, making it convenient for the user to refer back to the explanations of the correct answers.
