Sweatshops on Wheels: Winners and Losers in Trucking Deregulation Michael H. Belzer

Long hours, low wages, and unsafe workplaces characterized sweatshops a hundred years ago. These same conditions plague American trucking today.

Sweatshops on Wheels: Winners and Losers in Trucking Deregulation exposes the dark side of government deregulation in America's interstate trucking industry. In the years since deregulation in 1980, median earnings have dropped 30% and most long-haul truckers earn less than half of pre-regulation wages. Work weeks average more than sixty hours. Today, America's long-haul truckers are working harder and earning less than at any time during the last four decades.

Written by a former long-haul trucker who now teaches industrial relations at Wayne State University, *Sweatshops on Wheels* raises crucial questions about the legacy of trucking deregulation in America and casts provocative new light on the issue of government deregulation in general.
