*Sometimes the greatest finds are unexpected.*

After five centuries, Rafe Alexander knows what to expect from life--boredom broken by the occasional call from Shifter Affairs. No matter how mundane the job, he always accepts their plea for help. He knows what it's like to lose loved ones to the shifter trafficking rings decimating their species.

But the task that takes him to West Virginia changes everything. A human is dead. A shifter child is missing. And the human female connected to both tragedies is hiding a secret.

He needs to discover the mystery surrounding her. But the felines he houses--lion, tiger and jaguar--want him to get close to her for another reason. Jasmine is special, both for how she affects him and for the treasure she's been guarding.

And as danger mounts, he's left balancing his desire for revenge and his need to protect. But the line between them isn't always black and white, especially where his family is concerned.
