Supercharge your success with the help of a mastermind group!

Maybe you are an entrepreneur and innovation appeals to you. Maybe you have a startup or startups that need more direction. Or maybe you have a non-profit that could use some advice and guidance.

As Napoleon Hill in *Think and Grow Rich* advocated, a mastermind group can change your business and your life!

With the right mastermind group, you can:

- find key contacts to build your business
- develop marketing strategies and quality control
- brainstorm ideas and increase productivity
- access the power of the mastermind
- complete tasks and enjoy camaraderie

Without a team you feel isolated, overworked, and undervalued.

It's hard to be an entrepreneur by yourself. Add to that the fact that building teams takes time--something you don't have a lot of. Truth be told, you probably need a lot of help but don't always know how to ask for it.

If you want to put a mastermind group together easily and effectively, this book can tell you exactly how to do it.

This book:

- Gives you a process to create a successful mastermind group
- Helps you avoid common pitfalls
- Provides you the basis for potential entrepreneurial finance
- Provides entrepreneurial inspiration

And, mastermind groups are not just for entrepreneurs. All sorts of people can benefit from mastermind groups, such as:

- Religious groups—synagogues; churches, etc.
- Individuals all in the same boat (i.e., they lost their jobs and are seeking work) forming a team to help each other
- People engaged in life purpose seeking – I co-formed a mastermind group after a life purpose course several of us took. We met once per month and supported each other in our progress.

- Parents who want to meet and support each other regarding their kids
- Work teams inside companies can use this material to avoid the haphazard building of teams
- Theme teams—(such as book clubs where the focus is on a topic everyone is interested in and wants support on or focus on)
- Business owners
- Artists
- Musicians
- Writers
- Business professionals such as attorneys; accountants; real estate agents; insurance agents/brokers; healthcare providers;
- Service professionals, such as photographers; massage therapists; printers; graphic artists; web designers.
