Common Trees of Pennsylvania

Pennsylvania Division of Forests.

Common Trees of Pennsylvania Pennsylvania Division of Forests.

This booklet was prepared to enable the nature-loving public to quickly and conveniently identify some of the trees commonly found growing in Pennsylvania. Today, more than ever before, trees play an increasingly important role in our economic welfare. Trees produce wood, one of the essentials of our everyday life. The uses for wood are rapidly increasing. Trees provide shade and solace for man; they help to beautify the places we live; help purify the air we breathe and the water we drink; they enrich the soil and retard the earth from sliding into our streams, and they provide food and shelter for wildlife. In a few words: trees live to give. The brief study of trees features described in this publication will help you to develop a closer feeling for our mutual friends of the plant kingdom - the trees of our land.
