Where the Ships Die

William C. Dietz

Where the Ships Die William C. Dietz

Somewhere, deep in the vast blackness of space, a wormhole waits to be found. Dorn Voss needs to find it. But, the stakes are high and he isn't the only one looking.

Natural occurring wormholes are the lone means of intergalactic travel in the universe. Whoever controls them gains riches and power unimaginable. The coordinates of one such wormhole, the Mescalero Gap, are lost, hidden behind conspiracy and murder. With a prize so great, many a man or alien would do anything to find those coordinates and control the universe.

In WHERE THE SHIPS DIE, author William C. Dietz creates a dense adventure filled with complex characters and multiple storylines all crashing headlong towards one final confrontation.
