## **Tired of trading inconsistencies?**

Have you ever made money trading on Tuesday...only to give the profits back to the market on Wednesday and Thursday?

**The seven HIGHLY UNUSUAL trading visions outlined in this straightforward book can meteorically improve your odds of keeping your profits and not giving them back to the market.**

**There are great traders out there, BUT there are good ones too.**

The difference between good trader and great trader is one thing: Consistency

The majority of *good* traders can make money, but cannot find a way to do it in daily basis.

We want to be great traders. Don't settle for "good enough".

Good traders might make good returns here and there, but no one can rely on their results.

Making 10-15% only to lose 20-25% the week after is a symptom of good traders.

Great traders find ways to be profitable in the market with CONSISTENCY.

Real traders refuse to be "one stock wonder", who can make 5% today but then lose 20% the next day.

## **How this book benefits you?**

Trading is a vicious game. And not sure if you realize this or not, but we are  *Davids* trading against *Goliaths* of institutional traders, *High Frequency Trading* computers, and giant fund or hedge managers.

That fact alone requires us to exploit the smallest edge we could possible have. This book will give you an extra edge you need to be a consistently profitable trader.

**Regardless you are day trading, swing trading, Forex trading, futures trading, commodity trading, stock trading, options trading, or bond trading, this book will add values to your trading strategies.**

### **What you'll learn?**

1) How you can pick better trading opportunities by asking the right questions. Sounds simple, yet there is a reason this Chinese proverb exists *"He who asks a question remains a fool for five minutes. He who does not ask remains a fool forever."*

2) **Objectivity and Selectivity:** How you can make more money by looking at stocks or other instruments the correct way. This was how Jesse Livermore made his millions during the Great Depression.

3) **Practical Application:** How you can apply it on your trading / investing. This book discusses real life examples (i.e.: *Tesla* and the college student) and the art of trade execution. Analysis alone won't be enough!

4) **Calm. Collected, Sane:** If you have made then lost money in the market, let the seven principles guide your action in the market and solve the "puzzle of inconsistency"

### **Don't Leave Your Trading or Investing to Chances...**

...because than frankly, you just gamble your money away. Might as well go to Vegas. More fun.

Trading is a respectful profession that requires commitment, determination, and persistence. The trading learning curve also requires your time, energy, and capital.

**So in the end, we all can be CONSISTENTLY PROFITABLE investors and traders.**
